Continuation of Attachment(s) 3. Information Disclosure Statements (PTO/SB/08), Paper No./Mail Date: 08/26/2009; 10/20/2009.

DETAILED ACTION

1. Claims 1, 2, 4-13, 20 and 21 are pending as amended on August 26, 2009, with Claims 3, 14-19 and 22-26 having been cancelled. Claims 11-13 and 21 were withdrawn from consideration (see *infra.*).

Election/Restrictions

2. Claims 1, 2, 4-10 and 20 are directed to an allowable product and an allowable process of making that product. Pursuant to the procedures set forth in MPEP § 821.04(B), Claims 11-13 and 21, directed to another process of making the allowable product, previously withdrawn from consideration as a result of an election requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

3. Because all claims previously withdrawn from consideration under 37 CFR 1.142 have either been rejoined or are now cancelled, **the restriction requirement as set forth in the Office action mailed on February 23, 2009 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, Applicant is advised that if any claim presented in a continuation or divisional application is

anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

4. Claims 1, 2, 4-13, 20 and 21 are allowed.

Examiner's Statement of Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:
6. Based upon the amendments made to the claims, in the amendment filed on August 26, 2009, the U.S. Patent of Souparis (6,299,213) is now the closest prior art to that which is claimed in the instant application. However, Souparis fails to teach or suggest a security sticker having a surface resin layer that has a weak affinity with a sublimable dye that allows the dye to penetrate, a print layer that has an affinity for the sublimable dye and forms an image in a thickness direction of the layer by the dye, a

self-destructive film element that is made up of a dye-migration preventive resin layer and a self-destructive layer, and a pressure-sensitive adhesive layer.

7. Additionally, the U.S. Patent Application Publication of Yukawa et al. (2003/0165668; hereinafter "Yukawa") is close prior art to that which is claimed in the instant application. However, Yukawa fails to teach or suggest a security sticker having a surface resin layer that has a weak affinity with a sublimable dye that allows the dye to penetrate, a print layer that has an affinity for the sublimable dye and forms an image in a thickness direction of the layer by the dye, a self-destructive film element that is made up of a dye-migration preventive resin layer and a self-destructive layer, and a pressure-sensitive adhesive layer.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David J. Joy whose telephone number is (571) 272-9056. The examiner can normally be reached on Monday - Friday, 7:00 AM - 3:30 PM EST.
